DETAILED ACTION

Allowable Subject Matter

Claims 30-34 are allowed.

The Examiner has deemed applicant's response satisfactory and fully responsive.

The following is an examiner's statement of reasons for allowance:

In reference to claim 30, Duveneck ('785) teaches all of the limitations of claim 30, however fails to teach wherein the conductive interconnect layer is temporary and is completely removed. In contrast the interconnect taught by Duveneck (Fig.4 (114) is an integral part of the wafer and provides power to an array of surface light emitting layers (Fig.4 (101, 102, 103, 104 and their corresponding electrodes (151, 152, 153, 154).

Therefore prior art does not suggest the use of a temporary interconnection in combination with Applicant's other claim limitations. Claims 30-34 are therefore allowable over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
